

3. Environmental Policy

Workplace Access & Safety is committed to environmental leadership, instilling the highest environmental values in all employees/subcontractors, utilising the best environmental practices in all we do.

Our goal is simply stated:

“Zero Pollution to the Environment”

We will continue to drive down the environmental impact of our operations by the following:

- Compliance with all applicable legal, regulatory and other requirements for protection of environment including requirements of ISO 14001 Standard;
- Integrating environmental targets and objectives into our business strategy and reviewing our progress towards achieving them;
- Continuously improving our work practices in relation to their environmental impact;
- Identify activities that may have an adverse effect on the environment and mitigate their impact as far as practicable;
- Providing appropriate training and information to employees, including subcontractors, to ensure that they are aware of any potential environmental issues in the workplace;
- Minimising waste by using our natural resources efficiently;
- Reviewing our Environment Policy periodically to ensure it remains relevant to our work activities.
